Notes on Science

IMPORTANT DISCOVERY OF NEW PROPERTIES OF ALUMINUM—PLATINUM ORE FROM OREGON—A NEW METAL FROM OREGON.

(From the New York Evening Post, November 16th)

At the last meeting of the Lyceum of Natural History, Dr. Henry Wurtz read a paper upon some "New properties of Aluminum, with the discovery of a new allotropic modification of this metal" Dr Wurtz is the discoverer of the use of sodium amalgam in the working of gold and silver ores, and in the development of his process has had occasion to manufacture large quantities of amalgam, with which he has tried numerous experiments upon metals

The behavior of aluminum towards sodium amalgam revealed to him certain new and surprising properties of the first named metal In order to understand the nature of the discovery, it is necessary to say a few words about the metal aluminum Professor Wooler, of Gottingen, first prepared aluminum as a gray powder in 1827 He gave its specific gravity as 2 5, and stated that it decomposed water, but afterwards remarked that the metal in solid form did not possess this property

The difficulty of preparing aluminum prevented the application of the metal in the arts, until Deville improved the methods of its manufacture and reduced its price to ten or twelve dollars per pound, when it suddenly assumed great importance and attracted universal attention

The author of this important discovery founds upon it a new theory of aluminum. He considers, ordinarily, aluminum to be in an electro-negative or passive state, like what is known as passive iron, and that quicksilver induces an electro-positive or active state, in which latter condition it resembles sodium or potassium His experiment showed that no amalgam of aluminum is formed, but that the quicksilver is merely absorbed beneath the outer crust of the metal, and this phenomenon he believes to be analogous to the celebrated lead-syphon experiment of Professor Henry, in which quicksilver was slowly conducted through the pores of the lead, bent in the form of a syphon, as water would be conducted through a syphon tube.

Dr Wurtz's deductions from his new theory are of great interest and importance. He holds out the idea that we may confidently hope to obtain iron in a passive form—a discovery, the importance of which in all departments of the arts can scarcely be exaggerated Iron in this state would not corrode or rust, and could be applied to many purposes for which it is not now available. We may also some day obtain sodium and potassium in a positive state, so as to handle and expose them just as we now do aluminum. If a metal can be converted from a passive to an active state why not from the active to the passive?

We now know that aluminum is a bluish white metal, malleable, ductile, a remarkable conductor of electricity, fusing at nearly the same temperature as zinc. Although it is with extreme difficulty that we can separate aluminum from oxygen, yet when the metal is once prepared, it exhibits no disposition to reunite with that element. It does not decompose in water, and does not readily tarnish in the air It will not form an amalgam with mercury, but is converted by mercury into a modified condition, in which it oxydizes with so much violence as to glow and burn the hand. Dr. Wurtz showed contrary to common belief, aluminum absorbs pure quicksilver with avidity, just as lead will absorb it; and a piece of rolled aluminum sheet, rubbed with mercury is split into its component laminæ. The internal surfaces of aluminum thus coated with quicksilver possess properties altogether different from the usually passive metal. On exposure to the air they at once take fire spontaneously and burn with evolution of heat A coating of hydrate of alumina appears on the surface of the foil, in a bulky, feathery mass, with growth so rapid as to be visible to the naked eye. Aluminum foil, which in its ordinary condition, will not oxydize in the air, when rubbed with mercury is converted into an active metal, and absorbs oxygen so rapidly as to take fire and burn spontaneously.

The interesting discovery of Dr. Wurtz opens the door to an extensive field of research, and will attract the attention of scientific men everywhere. His experiments were repeated before the society, and lead so much animated discussion on the part of the leading chemists of the city who were present

SPECIMENS.

Professor Seeley exhibited a fine tooth of the mastodon, from Orange county, also, [illegible] silver ore from the new locality, near Thunder Bay, on Lake Superior.

PLATINUM FROM OREGON.

Prof C. F. Chandler exhibited a sample of more than one hundred ounces of native platinum ore from Oregon. Small quantities of this valuable ore have found their way to New York from time to time, but this is the largest amount ever yet received.

Platinum was first mentioned in 1736, by d'Ulloa, who noticed it among the gold sands of South America It was called platina (silver like) by the South American miners, from its resemblance to silver. Platinum occurs in grains, and occasionally in nuggets, associated with gold in alluvial deposits, at almost all the localities where this last metal is found.

The chief supply is obtained from the Ural Mountains, which furnish about four thousand pounds per annum. It occurs with gold in the sands of the Rhine, in [illegible] also in France, Spain, Hungary, Ireland, Australia and Borneo. The last mentioned island yields about eight hundred pounds per annum. In the new world it occurs in Brazil, Peru, New Granada, St. Domingo, California, Oregon, Canada East and North Carolina. South America furnishes eight hundred and fifty pounds per annum At all of these places it occurs in grains with gold. In the Hartz Mountains it is found in combination with palladium, in veins, it has also been noticed with gray copper of the Alps, also in the mineral bournonite, and Pettenkofer found in the gold and silver furnace slags of the mint at Munich. He states that it occurs in all silver, unless a peculiar process of purification has been employed. Occasionally, large nuggets of platinum are found One from South America, now at Madrid, is as large as a turkey's egg, and weighs two pounds Humboldt brought a lump from South America weighing two and a half ounces, which is now in the cabinet at Berlin. The Ural Mountains have furnished much larger nuggets—one weighing nine pounds, another sixteen, and another nearly twenty-three pounds. Native platinum is a natural alloy of this metal with [illegible] others It is generally associated with grains of iridosmine, a native alloy of iridium and osmium, used for the nibs of gold pens on account of its great hardness Next to platinum, iron is the predominating component. The proportion of iridosmine grains rarely exceeds six or seven per cent., [illegible] in the platinum of Australia and Oregon, the former containing twenty five per cent. and the latter thirty seven per cent. It is remarkable that the California platinum contains only from one to seven per cent., while that from Oregon contains so large a quantity.

A NEW METAL.

In 1862, Dr. Chandler received a small quantity of Rogue River platinum for examination, and obtained from it what he considered to be a metal It was separated from the ore by hydrochloric acid, was precipitated by sulphuretted hydrogen, the sulphide produced was rapidly dissolved by hydrochloric acid on addition of chlorate of potassa and zinc produced in this solution a precipitate resembling metallic tin This precipitate was dissolved by hydrochloric acid, but the solution did not give the usual tin reactions with chloride of mercury On consulting the journal, he found that ten years previously Dr. Gentle, of Philadelphia, had noticed among grains of platinum from California, a metal resembling tin, but differing from that metal in some of its reactions Dr Chandler was led to believe the two metals to be identical, but the quantity of material at his disposal was not sufficient to enable him to continue the investigation, Through the kindness of Mr H M Raynor he has received a large quantity of the ore and the question of the supposed new metal can now be determined

A painfully religious old woman being asked her opinion of the organ in the church, the first time she had ever seen or heard one replied "It is a pretty box of whistles, but, oh! it's an awful way to spend the Sabbath"

A clergyman at an afternoon service was asked to read a notice of a woman's rights' lecture, which he did in this wise "At half past six o'clock, at the school-house in the First District, a hen will attempt to crow."

Railroad Letter from Hon. Jesse Applegate

YONCALLA, OREGON, Dec. 13, 1867.

To W C WHITSON, Esq, Sec O C R. R. Co.,

Sir Your letter of the 29th ult., containing [illegible] inquiries, and requesting some information in regard to the country lying between Diamond P[illegible]k and the Humboldt river, has been received, and I have taken a day or two to consid[illegible] the subject.

That there was a pretended design to [illegible] the people of Oregon and California of nearly all the benefits of a railroad connection with the States, and defeat the intention of Cong[illegible] in granting land in aid of it, by setting up this *Humboldt scheme*, is not new to me. But prior to the receipt of your letter, I had not given it a moments' serious attention.

It seemed to me so palpably absurd, that I did not think it would attract the at[illegible] of any R. R Company, or arouse [illegible] in any part of the State I was only surprised that some men would adopt a [illegible] to gain [illegible] advantage to the [illegible] of their town. And this is all I yet think is [illegible] by this mo[illegible]nt.

Eugene City is a hand[illegible] low water, but is not very favorably [illegible] for the purpose of trade It is too high up the river to be benefited by its navigation [illegible] at high water, and then its low marshy [illegible] make it [illegible] by *land*. Its location also is against its being a point on either of the [illegible] proposed to be built through the Willamette valley. Though the length of a railroad [illegible] up the east side of the Willamette river would not be much increased by passing through [illegible] City, but if possible to take it [illegible] at all, it [illegible] be done at [illegible] risk and [illegible] The [illegible] being just below where the Willamette [illegible] the valley, and its forks unite, the heaping up of its waters (caused by a change of grade in the [illegible]) causes extensive overflows [illegible] freshet, and to bridge the river where its [illegible] is so great, and its banks and [illegible] buried so deeply under water, will not be [illegible] taken by any railroad [illegible] advantage in trade is to be [illegible] by it, [illegible] fortunately for Eugene City, is not [illegible] to be gained A shorter road can be had, with [illegible] at safe places, and [illegible] by [illegible] the separate forks of the river [illegible] tain, passing through the rival [illegible] field, only three [illegible] east of E[illegible] While the diff[illegible] in point of trade to the [illegible] pany, and the people [illegible] will be [illegible] ciable, the [illegible] will [illegible] destroy the value of property in E[illegible] City.

But it is *you of the west side* the people of Eugene most wish to influence. [illegible] the [illegible] advantage you have over [illegible] rival, in the shorter route, and the [illegible] average cost of construction, that you are [illegible] likely to succeed, or at [illegible] will be first completed and [illegible] do the [illegible]

They know that when [illegible] south from Corvallis, that you will not [illegible] the length of it by the [illegible] stretches of trestle work, and [illegible] grades in it as to [illegible] for any real advantage it can offer [illegible] ex[illegible] a factitious [illegible] that this [illegible] rival has been conjured up; and if it [illegible] you as [illegible] real and [illegible] you [illegible] to satisfy [illegible] it that you will [illegible] Eugene a point on your [illegible] tre from your path; but if a [illegible] be made with the [illegible] conj[illegible] will continue [illegible] you. [illegible] they have [illegible] gon is [illegible] but the price of their good will [illegible] is a [illegible] for it to [illegible]

That there is not a particle of [illegible] from this Humboldt [illegible] having money have the [illegible] only nec[illegible] to assert that all [illegible] a large part of their profits [illegible] ness, and it is an [illegible] that [illegible] through populous countries as to [illegible] cities. From Eugene City South, this [illegible] phantom route turns away [illegible] many towns and villages, [illegible] with a thriving rural population [illegible] taining (and soon will have, if [illegible]) ten times what it has at p[illegible] which it traverses for hund[illegible] inhabited now, nor capable of a[illegible] lation except [illegible] or even savage [illegible] No adva[illegible] by this route in length or grade, for, it is [illegible] and worse than the inhabited one. Were they even equal in this [illegible], the [illegible] along most parts of it, and the [illegible] supplies of any kind along the line, will [illegible] the cost of construction far greater in the [illegible] on the inhabited line.

The [illegible] for this H[illegible] is, that it will be a [illegible] the East than by way of [illegible] City. [illegible] if this is true (which is doubtful) no [illegible] tion [illegible] contemplated by Cong[illegible] the act of July 25th, 1866, this [illegible] diverted to such a route; and if it [illegible] diversion would be a [illegible] upon all the [illegible] along the direct line [illegible] mento cities

No connection with the C[illegible] will be worth anything to Oregon, [illegible] ion with the east, over a [illegible] to, that taps the line of that road [illegible] Lake, and if 100 miles east of that [illegible] ter for Oregon To be of value, it [illegible] the mineral regions on Snake river, and the valley of that river will be its natural [illegible] I will venture to [illegible], that if a road was [illegible] proposed Humboldt route, having [illegible] equal to one con[illegible] at [illegible] City, that nine-tenths of the travel [illegible] East, would take the [illegible] ty al[illegible] would be enough to ind[illegible] It is worth a journey across the continent to see the grand achievements of engineering skill in overcoming the greatest barrier It has yet surmounted the Sierra Nevada, to say nothing of the famous places to be seen, and the grand and beautiful scenery to be enjoyed all along the way from Sacramento to Portland.

The opinions adv[illegible] in this [illegible] are [illegible] the deductions of my own judgment, and may be erroneous, but none of the material [illegible] need be accepted on my [illegible]

Able [illegible] men have been sent out on purpose to explore the region through which this proposed Humboldt route passes The Indian wars of the last few years have caused hundreds of our fellow citizens to explore it also, and all [illegible] in its general character as sterile. That [illegible] is a scarcity of timber, (and the little [illegible] of access), almost everywhere east of the Cas[illegible] and that south of Goose Lake mountains [illegible] none at all, is a well known fact. The United States Government explorers having [illegible] in ob[illegible] and des[illegible] anybody, [illegible] ous engineering difficulties in many parts of the route, which make a railroad very [illegible] Lieutenant Williamson, one of the ablest among them, explored the pass through the Cas[illegible] mountains, where it is proposed to make this Humboldt road, and found nothing in it to [illegible] but says, on the contrary, that if a railroad can be made through it at all, it will be at an enormous expense (See vol. 6, R. R. Reports, U. S. Docs) And in this connection I will only add, to this overlong letter, that any one who will take the trouble to compare "A table of Altitudes and Distances," published in the WEEKLY OREGONIAN of Dec. 7th, 1867, with the map of profiles in volume 10, U S Railroad Reports, will find the "altitudes" seem to have been compiled from those Profiles, for they follow Lieut Williamson's (Profile 12) from Portland to Klamath Marsh, copying his altitudes exactly from Portland to Eugene City, but as beyond Eugene, both Williamson and all other explorers make all the mountain p[illegible] much higher, and [illegible] of valleys much lower, than they now app[illegible] in this publication in the OREGONIAN, hence we must conclude there has been a great sinking down of the mountains, and filling up of the valleys, in that inhospitable region in the last twelve years.

Very respectfully, your ob't serv't,

JESSE APPLEGATE

A political religious daily, to advocate Ritualism, is to be started in New York as soon as the necessary funds can be raised Half a dozen reverend doctors are named as its editors

The Washington *Star* advocates the establishment of a National Chamber of Commerce, and thinks if it were to meet in Washington, it would have an important influence upon Congress.

The Daily Oregonian

SATURDAY MORNING JANUARY 4 1868

State Railroads and Party Politics

Information has reached us that [illegible] of our friends in different parts of the State and particularly in Southern Oregon are somewhat displeased with articles which have appeared in the OREGONIAN touching the building of railroads This is quite natural as it would be as impossible as it is undesirable to have perfect accordance of opinion in regard to all the railroad project which have been noticed in our columns We have no favorite route or routes for railroads and have made it a point to publish all the matter which has been sent us on this topic, and to give the views of the entire press of the State upon it—with the idea of promoting an interchange of opinion, and showing what the people in different parts of the State think of the several plans which have been proposed —a policy which has been pursued by no other paper in Oregon It is not expected that the people of any part of the State will be pleased with all that we have published on the subject, and it would not surprise us to be told that in some sections—Southern Oregon for instance—they had objected to every proposition that has been made Nothing is more natural than a difference of opinion on such matters Therefore when we are told that certain views which have been expressed in this paper in regard to railroads do not suit the opinions or interests of certain localities, we are told nothing more than we had expected to hear. But when it is said that articles which we have published on this subject are injurious to the Republican party in certain portions of the State, we are told something new and surprising Even supposing that the OREGONIAN were interested in any proposed route, and advocating it against all others, how could this affect the Republican party? How could the expression of an opinion or the advocacy of a measure which neither has nor can have any connection whatever with politics (though attempted by a leading Republican paper,) in any way commit the party to that scheme? Railroads, as a general rule, are not built by political parties. The Republican party of Oregon, so far as we are aware, has no railroads It is not building railroads just now Matters of a strictly political nature engross its attention [illegible], there is a good deal of railroad talk going in the State; but we believe it is independent of party, and that the words 'Republican' and 'Democrat' are not used in that connection And if any Democrat attempts to turn this matter to party account, or cites from railroad articles or communications published in the OREGONIAN with a design of making capital against the Republican party, let him be informed in the first place that that party is not engaged, as a political organization, in building railroads, and in the next place, that the OREGONIAN is not its organ on this question, and does not claim to be authorized to speak for it on any matter of the kind. This idea that every question of a social or [illegible] character which may be broached, must be [illegible] with a view to party politics, is a slavish notion which should not be tolerated It turns a party aside from its real objects, and by frittering away its strength on matters which are outside the true domain of politics, leads to defeat. What this paper may say on the subject of railroads is a matter of no concern to the Republican party as a party Suppose we should strenuously maintain that a certain breed of [illegible] was the best and most profitable for Oregon farmers, and that all other breeds should be got rid of at once, is there any one who would [illegible] the expression of such views were injurious to the Republican party, and write us letters [illegible] in the name of the party, against such a course? This supposed case is exactly [illegible] to [illegible] we are considering.

[illegible] ADMINISTRATION.—The President says the [illegible] of punishment inflicted by Congress upon the [illegible] of the South "are the most [illegible] that could be invented," and that "a [illegible] people are perfectly innocent, — [illegible] kept their fidelity to the Union untainted to the last." Exactly so, Mr Johnson, but what [illegible] people" complain of the [illegible] passed by Congress? Do loyal men? Not a whisper of disapprobation has come from [illegible]; but on the contrary they sent [illegible] and delegations to Washington praying [illegible] law makers to put their several States under U. S. military rule and keep them so, [illegible], until the judgment day, rather than [illegible] the old pro-slavery, rebel population of [illegible] to be re-invested with official power. The men who "kept their fidelity untainted to the last" are unanimously in favor of the measures of Congress which Mr Johnson pretends they [illegible] Not a word of opposition has [illegible] from the rebel element which the [illegible] has taken under his patronage and protection. Nothing could be more disingenuous, not to say [illegible] false, than this statement that the loyal men of the South are opposed to the [illegible] of Congress

THE REACTION.—It is noticeable that there is a [illegible], particularly among the great producing States of the West, to stop the contraction of the currency which has been going on for the last two years. The people believe that there is not too much currency in circulation for the [illegible] of business, and the contraction which has been going on has simply made money scarce without raising the value of greenbacks The [illegible] is fast becoming known and appreciated that it is not the present bulk of legal tenders [illegible] which prevents a resumption of specie payment, but the [illegible] bulk of the debt which prevents that consummation In this view of things, [illegible] at the East which were recently in favor of continued contraction, now demand that contraction shall be stopped While the debt remains in its present form it is useless to talk of resumption, and the diminution of greenbacks by a few millions will not help the matter in the least. "The legal tenders and the bonds," says the New York *Tribune*, "are both alike promises of the Government, and the only possible difference in their value must arise from the amount of interest they bear or the time they have to run"

About a year ago, Gov Andrew of Massachusetts, said in a public speech 'Enforce the Prohibitory Liquor Law, and the intelligent people of Massachusetts will indignantly erase it from the statute book in less than a year' Had that statesman been permitted to live he would have seen his prophecy fulfilled and his slanderers severely rebuked. The late election has developed a remarkable state of things, and the more a person analyzes the vote the more astonished is he at the result Both parties are disappointed in the figures. The temperance party so confident of [illegible], finds itself overwhelmed with defeat, and the license party somewhat doubtful, finds itself triumphant

GEOGRAPHICAL DISTRIBUTION OF COMMITTEEMEN.—The New York *Tribune* has been studying the geographical distribution of Committeemen in the House of Representatives, with the following results: "Of the 45 Committees the chairmen were, eight from the Eastern States twelve from the Middle States, two from the Southern States including Maryland and West Virginia and twenty three from the Western States including Missouri Of the members of these committees 50 were from the New England States 115 from the Middle States, 101 from the Western States 31 from the Southern States, and 11 from the Pacific States"

National Finances

In the Senate of the United States, on the 2d December Mr Corbett asked, and by unanimous consent obtained leave to bring in the following bill which was read twice and ordered to be printed

A BILL to provide for the issue of gold notes in place of legal tender notes, and to facilitate specie payment.

Be it enacted by the Senate and House of Representatives of the United States in Congress assembled That the Secretary of the Treasury be and be is hereby authorized and directed to issue and keep in in circulation gold notes payable in gold or silver coin on demand at the treasury of the United States of such denominations as may be most convenient for circulation, to an amount not to exceed ninety per centum of the gold and silver that may be in the treasury

SECTION 2 *And be it further enacted* That the Secretary of the Treasury be, and he is hereby authorized to sell seven millions dollars of said gold notes each and every month after the twenty eighth day of February eighteen hundred and sixty eight, the said notes to be sold for legal tender notes to the highest bidders at such time or times, and in such amounts as the Secretary of the Treasury may deem best for the public interest *Provided*, That at no time shall there be placed in circulation an amount to exceed ninety per centum of the amount of gold in the treasury exclusive of that in the treasury for which gold certificates have been issued and the amount of legal tender notes received in payment for gold notes shall be withdrawn from circulation

SEC 3 *And be it further enacted*, That as soon as any portion of said gold notes are placed in circulation, the Secretary of the Treasury be and he is hereby required to suspend any further contraction of the currency than may be effected by this act

SEC 4 *And be it further enacted* That the gold notes issued by the provisions of this act may be held by banks as a reserve in place of the same amount of legal tender notes that the said gold notes shall in all cases be counted as a part of the bank reserve required by law, and shall be in every respect lawful money and equivalent to gold, receivable for customs and for the interest on the public debt

SEC 5 *And be it further enacted*, That where individuals corporations companies or firms make up and return their income based upon gold, the Secretary of the Treasury may require their income to be paid in like currency

The following proceedings were had in the Senate on the 6th December

Mr Corbett presented a petition of citizens of Oregon praying that compensation be made to Jacob Leabo for services rendered as one of the express guard to accompany Joseph Meek across the plains in 1848, from Oregon Territory to Washington City the expedition being a military necessity, and for property lost or abandoned on the plains, which was referred to the Committee on Indian Affairs

Mr Corbett asked, and by unanimous consent obtained, leave to introduce a bill (S No 169) to amend an act entitled An act making appropriations for the service of the Government for the fiscal year ending June 30, 1867, and for other purposes," approved March 2d, 1867; which was read twice by title.

Mr Corbett I move to refer the bill to the Committee on Indian Affairs

Mr Grimes It purports to be a bill amending an appropriation act, and it should go to the Committee on Appropriations.

Mr Corbett I will state to the Senator that this bill is an amendment of an act which requires money to be paid to the actual owners of certain certificates in 1862 and 1863, many of whom are now dead It is desired to strike out that restriction and to pay the holders of these claims, who have paid their money for them, and who have been kept out of their money for a number of years It is a matter that pertains to Indian affairs, and I desire that the Committee on Indian Affairs should examine it and see whether it is proper and right to make this amendment of the law

Mr. Grimes. The whole Indian appropriation bill pertains to Indian affairs and no other subject. The bill that this is an amendment of pertains to the same subject that this does That bill, of course, came from the proper committee having charge of appropriations, and that reference would be proper now. I would also state that the Senator's colleague had introduced a bill covering the same ground substantially which has been referred to the Committee on Appropriations,

Mr Corbett. At this session?

Mr Grimes Yes, sir.

Mr Corbett. I withdraw my motion.

The bill was referred to the Committee on Appropriations.

LOAN TO REDEEM THE FIVE-TWENTIES

Mr. Corbett. I offer the following resolution, and ask for its present consideration

Resolved, that the Committee on Finance be instructed to inquire into the expediency of reporting a bill to authorize the Secretary of the Treasury of the United States to contract a loan and issue bonds of the United States for the same, redeemable at the pleasure of the Government after twenty years, and payable in forty years, bearing interest at the rate of five per cent per annum, principal and interest payable in gold coin, and place the same upon the market for the purpose of redeeming the United States bonds commonly called five-twenties as they mature.

There being no objection, the Senate proceeded to consider the resolution

Mr Corbett Mr President, I present this resolution with a view of referring the subject to the Committee on Finance I wish to show the holders of the five-twenty bonds that we intend to keep the pledged faith of the Government in regard to its funded debt. Where payment in coin is so expressed we will pay in coin, and where that has not been expressed heretofore in the laws, let us place upon the market a long loan, and redeem the outstanding bonds in that way It will certainly be impossible for us at the end of five years to red[eem] the vast amount of five twenty bonds in gold coin, but the bond holders can have them funded into a long loan, the interest at five per cent, and those bonds cannot be taxed.

I have no doubt the funding of them into a long loan at a low rate of interest will be satisfactory to the people and to the bond holders It is generally understood that the municipalities and States have no power to tax the United States bonds under the Constitution of the United States It has been so repeatedly decided by Chief Justice Marshall, and subsequently in later times in the Supreme Court of the United States, while Mr Taney was Chief Justice I believe it is generally conceded that the municipalities, counties and States have no power to tax the bonds of the United States; therefore I think that a long loan should be obtained giving the Government time to rally and return to specie payment. I think that when we once inaugurate a system for returning to specie payments it will cover this whole ground and there will be no reason and no necessity for passing resolutions pledging the faith of the Government to pay the principal and interest in gold coin But it is proposed by this resolution that they so pledge themselves for a loan which is to be at a low rate of interest, and to redeem one now outstanding at a large rate of interest We are perfectly aware that large amounts of these bonds are now going to Europe, being exported instead of the products of the country; that they are being purchased at the rate of seventy five cents on the dollar, and that we are paying six dollars a year on every seventy five dollars, making eight per cent interest per annum If a loan such as I propose could be placed upon the market with the pledge of the Government to pay the principal and interest in coin, I have no doubt it would be successful at the rate of five per cent. and would satisfy the people and the European bond holders That will be a low rate of interest for us to obtain money at, and will be equivalent to a national tax upon the bonds of one per cent so that the holders who now receive six per cent would receive but five

I claim that the States have no right and no power under the Constitution to tax our bonds in any shape or form If we concede that point we place it out of the power of the Government, in time of distress, in time of rebellion or internal commotion, or when it is necessary to protect ourselves from attacks from abroad, to negotiate loans at favorable rates The importance of the power in the General Government to exempt its bonds from State taxation may be readily seen It is an essential element in the welfare, prosperity, and strength of the country. I think we should consider this whole matter with a view to the future and not to the present. Many expedients are brought forward to relieve us from the heavy taxation to which we are subjected, but whatever we adopt should not be a policy which will be to the detriment of the Government Whatever is done should be well considered and with a view to the future Our credit is now trembling and the people are hesitating about United States stocks There is a doubt as to whether they are to be paid in United States gold coin as to whether it is a fundamental rule established by the Government that the bonds shall be so paid The act of Congress under which the bonds were issued is certainly not very plain on that point, but I have no doubt that at the time the act was passed the rate of interest then fixed was considered to be a low rate in view of the troubles by which we were surrounded and that it was generally considered that the bonds would be payable in United States gold coin I hope such an act as is indicated in the resolution will be presented here at an early day; and I think it will meet the whole difficulty in which we are now involved in regard to the five twenty bonds I hope the whole subject will be carefully considered by the Committee on Finance

The resolution was agreed to

Ship Building on the Pacific

A pamphlet has lately been published at San Francisco in which the subject of ship building on the Pacific coast is considered, and which contains some points that will be of interest to Oregon and Washington Territory The question whether it is practicable to inaugurate a large ship building business at Puget Sound and other ports north of San Francisco is considered in this pamphlet In the matter of obtaining materials for naval architecture statements and suggestions are made which show that the resources of the northern coast are not altogether unknown at San Francisco We give a few paragraphs on this subject from the pamphlet Of timber, it is said that

The red and yellow fir is coming into favor, and a ready takes rank with the hackmatac of the East, while many insist that, considering its fastening qualities, it only needs large sizes to give it the strength of oak It is certain that a vessel built of this material will last, with top works renewed, from 12 to 16 years This timber can be furnished in exhaustless quantities at every mill on Puget Sound, on the Columbia river and at every lumber port on the northern coast at $10 and $12 per 1,000 feet board measure) in gold exclusive of all mill work necessary in dressing and preparing it for ship building

Tide land Spruce—This tree is also abundant in many parts of Washington Territory, Oregon and Alaska It resembles the hackmatack of the Eastern States, and is particularly suitable for top timbers and natural crooks Knees and breasthooks of almost any size can be procured from it indeed, it is our principal dependence for these portions of a vessel's frame on account of its spreading its roots on the surface of the ground The durability of this wood is believed by mechanics to be about the same as that of hackmatack It holds iron fastenings remarkably well, and grows to a size sufficient for all ship building purposes

Yellow Cedar—This tree is undoubtedly the most valuable of all our trees for ship building It is found in great quantities at Coos Bay, thence along the coast of Oregon to Port Orford, also, on the islands and main land of Alaska The Indians of the latter territory have for ages used its trunk for their canoes This cedar is much finer grained, handsomer, more dense, and a better timber in all respects than any other cedar known It grows to a height of 175 feet, with a diameter of 4 feet It is probably the finest material for decks in the world At Coos Bay, A M Simpson informs us that there are inexhaustible quantities of this cedar

White Cedar—This tree, the common cedar of the Eastern States, is found abundantly on the mountains in Washington Territory It possesses here the same qualities as elsewhere, and is just as suitable for ship-building, and just as durable here as at the East Logs of it have been found at Puget Sound under the roots of living trees four feet in diameter yet remaining perfectly sound, showing that after two or three hundred years it betrays no sign of decay

Spars—Since Puget Sound has for years supplied several British and French ports, China and Australia with the finest spars in the world, it is needless for us to allude to this important item, except to remark that in nearly all the important ship yards of the old world a heavy freight has to be paid on spars, because they require vessels of large size to be injured for other purposes by the cutting of bow ports, while the bulky nature of the cargo requires a long time for loading and discharging All this is wholly saved at Puget Sound and at all other of our lumber ports where the finest of spars can be procured in immense quantities, for the mere cost of cutting and towing them to the yards

Iron has lately begun to be produced near Portland, Oregon, from a mine said to be inexhaustible, and yielding an ore so rich, that we are informed that shoe shapes may be hammered out or castings made at the furnace from the first melting This mine is surrounded by exhaustless material for charcoal It is owned by men of large capital and enterprise, who will doubtless soon be able to produce iron of every description below the present cost of importation.

Of pitch, tar and turpentine we have an abundance, and the average prices would probably be less than those which prevail at the East

The following conclusions are submitted from the data collected by the authors of the report

Sailing [illegible] of any size and description can be built at Puget Sound, at Coos Bay, on the Columbia river, and at several other lumber ports north of San Francisco, of as good quality as the vessels built of Maine materials, and for less money in gold, than at New York or Boston; provided, the business be undertaken on a large scale by experienced and prudent mechanics, backed up by a large capital. We believe that a corporation should be formed with a capital subscribed of $1,000,000, and power to increase it to $5 000,000, that at least $500,000 of this amount should be paid in within 12 months The company should make a selection of suitable location for yards at two or three points on Puget Sound, or at Coos Bay. They should import by the cargo, to their yard, direct from the cheapest supply ports in the world, all such articles of naval stores as cannot be more cheaply supplied from our own industry They should erect permanent buildings at their yards for the storage of supplies, for sail lofts and boarding houses for the men They should contract abroad for hundreds of mechanics, ax men, and other laborers, if they found themselves unable to command a sufficiency of labor at home. All their operations should be conducted on the wholesale principle. The vessels should be constructed on the best models thoroughly fastened, heavily timbered and supplied with all modern improvements, so as to give them a good character from the start The company, having a large capital, would be able to keep several vessels on the stocks, and if not saleable here on completion, at a fair price, they would be able to freight them from port to port until a market were found And in this connection we remark that there is now no yard on the west coast of America capable of turning out a good ship of 500 tons, while there is always more or less demand for the purchase of vessels at every considerable port in the Pacific, at Australia, in China, Japan and the East Indies

Experience in construction would soon point out wherein greater cheapness as well as strength could be secured and it would be quite contrary to every justifiable expectation, if we did not soon find that we could build vessels for a less price than any one now deems possible and of a quality sufficiently good to secure a fair average of business, and insurance at the lowest rates We believe that the conversion of a portion of our vast forests into shipping, would thus pay our mill men better than the present exclusive attention to the manufacture of lumber for export

We may also remark, in passing that 100 barks of 300 tons each, could be built, equipped and employed in the whale fishery out of Puget Sound to much better advantage than from New Bedford, while as many schooners could even now find employment in the fisheries of the North Pacific and Ochotsk quite as profitably as if sailing from Gloucester or Marblehead

OCCUPANCY OF SAN JUAN ISLAND—On the 2d December, Mr Flanders, delegate from Washington Territory offered the following resolution in the House, on which the previous question was demanded

Resolved That the Committee on Military Affairs be instructed to inquire into the expediency of terminating the joint occupancy of San Juan Island, also the number of troops we now have stationed there, and the cost to this Government of supporting the same, and that the said committee be requested to report the facts to this House at an early day

The previous question was seconded and the main question ordered, and under the operation thereof the resolution was adopted

REVOLUTIONARY SIGNS—Secret political societies are being unearthed in Paris Riots in a small way have taken place there, and the Paris press has been placed under a new and more rigorous censorship by Napoleon All these straws show the direction of the political zephyrs, and just such a state of affairs has preceded the great revolutions in France and heralded a change of government if not of dynasty Napoleon is growing old, his son is feeble, the popular will is showing itself and France appears to be on the eve of a change

The London *Times* speaking of Johnson's recent message says

He regards his office as absolute sovereigns do their prerogatives He forfeits all respect It is plain to see where the hope of the people of the United States lies, between Johnson on the one side and Stevens on the other

When General Grant was testifying before the House Judiciary Committee, Eldridge one of the Copperhead members plied him so closely with impertinent questions that he remarked "I will state here that I am not quite certain whether I am being tried, or who is being tried, by the questions asked" Eldridge subsided

Gov Ward, of New Jersey Chairman of the National Union Republican Committee, congratulates the Soldiers and Sailors Union on having come out for Gen Grant as President.

THE OPINION OF AN OFFICER IN THE ARMY— At inspection I noticed that a large proportion of the men's knapsacks contained a box of Troches being generally used by them for Colds etc *Brown's Bronchial Troches* should be taken on the first appearance of a Cold or Cough which by neglect may terminate in some incurable Lung Disease

RECREATION AND AMUSEMENT—It is necessary that mortals should have some amusement and since our city is not blessed with an elegant theatre or some place of innocent amusement it is the duty of every man to see that his acquaintances coming to our city should at least be pleased and how can you please them better than by taking them to KOHN & FISHEL'S No 91 Front street to buy one of those handsome suits they keep for sale

Buchtel's Photograph Gallery is the *only* establishment in Oregon that is thoroughly prepared to do *all the different styles* of work in the art Photographs from card to life size *The new cabinet cards &c &c* Small pictures enlarged (retouched in India ink—painted in water-colors or oil) by Mrs S J Rumsey Pictures that are fading can be reproduced in this way All negatives taken in this gallery will be carefully preserved and additional copies had I have now on hand a very large collection of negatives, the names of which are recorded alphabetically in a book for that purpose that can be seen in the reception room

VANCOUVER ITEMS.—We clip the following items from the *Register*: Congestive fever is prevailing to an extent almost amounting to an epidemic, in this county, at the present time.... The attempt to raise the body of Mr. Satterby, the man who walked off the wharf on Christmas Eve, by firing a cannon near the spot where the body is supposed to lay, failed.... The following is a list of officers elected by the North Star Council, No 7, I. O. G. Templars, Dec. 28th, 1867. W. H. McGrath, W. C.; H. Leonard, C. W.; Peter Runey, J. W.; C. Stiles, S.; Mary Leonard, T.; R. W. Downing, H.; Mrs. Ada Miller, G.; Jerry Michaels, Sentinel; Henry C. Turner, P. G.... The health of the county is decidedly bad. The cold, bleak winds prevailing lately, which were supposed to "blow nobody good," have brought prosperity to the doctors by scattering colds, influenza and other kindred ailments broadcast over the county. Dr. Toby has more patients than he can attend to and still they come. Children are the greatest sufferers.... Charles Proux, an old resident of Clarke county died of hemorrhage of the lungs, on Thursday night, at his farm two miles below Vancouver. Mr. Proux was a fine specimen of an almost extinct class—Hudson Bay batteaux-men—of whom none were more intrepid or skillful. He had resided in this county about 35 years, acquiring a handsome property, and died generally regretted.... A discharged soldier attempted to leave on Wednesday afternoon's boat without settling a small balance of three dollars with his laundress. She followed him to the boat importuning him in a very [illegible] manner to settle, emphasizing her demands by pelting the delinquent over the head with her umbrella. Failing to get any satisfaction she called Deputy Marshal Fox, who went on board the steamer and made the fellow disgorge.... The *Register* publishes a tabular statement of the finances of Clarke county, by which it appears the county's indebtedness amounts to $17,340 94.

LOSS OF PROPERTY BY THE FLOODS IN LEWIS RIVER.—A correspondent of the *Register* furnishes a lengthy account of the damage on Lewis river by the late floods, from which we make the following statement: Mr. Gardner lost between $500 and $600 worth of fencing, outbuildings, hogs, sheep, hogs and produce. Mr. Bachman lost everything—house, barn, thirty sheep, a valuable mare, eight hundred bushels of potatoes, etc., amounting to about $1,000. Mr. Eaton lost his house, furniture, a quantity of flour, his blacksmith shop, with tools, fences, etc.—total, $500. Mr. John Bazelite, lost a pair of horses, thirty head of sheep, and three cows—$600. Mrs. Page suffered considerably from damages to fences and washing away of lands, etc. amount not stated. Mr Webb's farm was damaged to the extent of $500. Mr. Lewis lost $1,000 by the cutting of channels through fields and the loss of drift wood. Messrs Gilson, Owen Bozarth and many others also suffered to [illegible] amounts. The correspondent says: "Notwithstanding the serious losses and wretched aspect of things generally, there is a disposition everywhere to repair damages as far as human skill can do it, in building new houses, fences, etc. Before the flood [illegible] it was going better than at any time [illegible] the farmers had a [illegible] in building themselves good and comfortable houses and in some instances considerable taste and elegance had been displayed. But with that perseverance characteristic of the American people they seem determined to go ahead and build upon the ruins."

A RUNAWAY AND A WRECK.—A horse attached to a dray started just after noon yesterday, from some point on North Front street, and took a tearing gait up Front, till he came in some nearly opposite the American Stable, when he attempted to turn in. His speed and momentum being too great to admit of so short a turn, his attempt to call in for his case failed and he only succeeded in getting on to the sidewalk just in time to mow down with the dray, every one of the awning posts in front of Jack Allphin's saloon. The posts, awning roof, signs and bird and [illegible] cages came down in a confused wreck, quicker than wink. The horse went on, passing with the dray the awning posts and the building occupied by Sherlock & Co., and turning down Oak street toward the river, brought up against a wood-pile. Neither horse or dray was seriously injured. The falling awning roof crashed through one of the windows of the Mountain Restaurant, broke up one or two of the signs down beneath it and released quite a number of Jack's birds, by crushing the cages. No person, fortunately, was hurt. When we passed along a few minutes later, Jack was busy "saving the pieces" and whistling his favorite tune. He said he had a couple of bushels of Yaquina Bay oysters to arrive by the *Alert* this afternoon, with which he thinks he can make all right, and [illegible] that whatever may happen Jack's faith in Yaquina oysters is unfailing.

THE INDIAN WAR.—A private letter from Camp Harney brings the information that Gen. Crook has determined upon making a winter campaign against the Indians in his district, to be prosecuted with all the vigor that can possibly be infused into it. It has hitherto been a rule [illegible] that a winter campaign is impracticable. The attempt has been made once or twice in the Northern country, but so feebly and with such scant preparation as to bring the enterprise all over with failure, from the beginning. But for all that, we believe that with good common sense management and ample preparation, a winter campaign is not only practicable but advisable. The Indians have come to think that the moment the first snows fall, they are thenceforward safe till the next spring has fully opened. Teach them the reverse of that; show them that the whites can follow them into their winter fastnesses, and a long stride will have been taken toward their subjugation. To talk of peace with them short of total subjugation is utter nonsense. No such peace can be obtained till the Indian is made to feel that there is no day in the year when he is secure; that no season and no circumstance can yield him immunity; that submission and good behavior only will give him a time or place to rest. If the authorities at the Headquarters will properly back up Gen. Crook's winter campaign, the "noble red man" will come down a peg in his present contempt for the white soldier.

THE VANCOUVER REGISTER.—Mr. S. W. Brown having retired from the editorial management of the *Register*, that [illegible] has been assumed by Mr. Stephen P. McDonald, one of the publishers. His salutatory appears in the issue of to-day, from which we clip the subjoined extracts: "The present publishers being both craftsmen, will be able to publish a much larger amount of reading matter [illegible] formerly and at no greater expense, thereby greatly enhancing the value of the *Register* as a family newspaper. * * * We do not design to allow our embryo reputation as a journalist to be nipped in the bud by [illegible] gotten up dissertations on political questions, which, though they may be of momentous importance to the country at large, affect the interests of Clarke county very triflingly indeed. We shall leave the [illegible] for reform to guns of heavier calibre, and content ourselves with chronicling the fact after its accomplishment.... The political complexion of the *Register* remains unchanged. We shall touch politics cautiously and endeavor, by the moderation of our sentiments to gain the good will of all regardless of political differences."

WINDS AND RAINS AND PLANETS.—Not long since, Dr. Del[illegible], of Jamaica, predicted the great earthquake which has since visited the island of St. Thomas. He founded his prediction on signs which he read in the planets, and further, uttered solemn warnings of the approach of extra ordinary atmospherical disturbances—all owing to the influence of the planets. "Caxton," a well known correspondent of California newspapers, has been investigating the phenomena of the unusual elemental commotions that have lately prevailed everywhere, and has adopted Dr. Del[illegible]'s theory. It seems that Jupiter, Saturn, Mars, Venus and Mercury have all got mixed up with the sun, being in what the almanac people call "Conjunction," and among them have kicked up a breeze. The moon, too, mixed into the quarrel the other day, by getting into "conjunction." This was more than the clerk of the weather could stand, and he hasn't done anything since but blow and storm. That's what's the matter. No explanation could be more plausible or philosophical.

OREGON CITY ITEMS.—We learn from the officers of the steamer *Alert* that a man named O. A. Asco was found dead in his bed, about noon yesterday. He occupied a small building opposite the postoffice. Not appearing at his breakfast or dinner, some person went to his room to ascertain the cause and found him dead. He had been out in the evening before appearing to be in usual good health and spirits. A telegram that evening furnished the following additional particulars: A coroner's inquest was held and they returned a verdict that he came to his death by apoplexy of the brain. Deceased was about 45 years of age, a native of some Prussian province, and came to the United States in 1848, a political exile. The following items were received, also by telegraph: The stage going South yesterday returned today, being unable to cross Pudding river at Dutchtown. No stage started south to-day.... The river has raised about eighteen inches since 12 o'clock noon, and still rising slowly.... Steamer *Senator* will be afloat above the falls to-morrow.

LOTTERY.—From the accounts we got of a lottery scheme or as it is usually termed a raffle, which came off at Oregon City on New Years day, we conclude the lotterists had a gay old scheme and a gay time in working it through to its finality. One or two parties drew bedroom sets or furniture of some sort, but the heft of the prizes consisted of "two bottles of ink" each to the lucky holders of chances. Bro. Ireland drew "two bottles of ink" and then one after another to an indefinite number, drew "two bottles of ink." "Two bottles of ink" ran through the whole list till the whole affair got too ridiculous for anything else but a general laugh, and so the scheme was voted an "eminent success." A practical joker was doubtless at the bottom of the scheme.

RETAINED LETTERS.—The following letters are retained in the postoffice in this city for non-payment of postage: Charley Busk, Vancouver; Mrs. Ellen Ross, West Chehalem; Mrs. Springer, Hotel, Albany; Mrs. Frank Burrows, Astoria; Miss Yoens, Anderson Valley; Charles Horne, Astoria; Messrs D Harris & Co, Dalles; H. K. Stevens, Chinook, W. T.; J. G. Brown, Dalles; Thos Quimby, Lyndon Centre, W. T.; B. P. Patterson, La Grande; 1 blank—not addressed; Aaron Ramsey, Walla Walla, W. T.; Mrs Erable San Francisco; Prentice A. D [illegible], Randolph, N. Y.

GOING EAST.—Gov. Woods gave us a call yesterday. We learn from him that he is on his way to the Eastern States on private business. He has not been east of the Rocky mountains since when a boy, he crossed the plains with his father and family, and we presume that a visit to his old home is one of the incentives to his present trip. We trust that the elements and the powers that fix the distribution will use him well and return him safely to Oregon again. He expects to reach home by the 1st of April next.

ELECTION OF OFFICERS.—The annual meeting of the stockholders of the Oregon Iron Works was held at the company's office on Thursday, when the following Directors were chosen to serve the ensuing year: Messrs David McCully, W. K. Leveridge, T. J. Carter, H. Hayden, and Stephen Coffin. Yesterday the Board of Directors organized by the election of the following officers: Stephen Coffin, President; David McCully, Vice President; J. M. Drake, Secretary and H. Bloomfield, Superintendent.

THE BREWSTER.—This brig, in tow by the *Okanagan*, will go to St. Helens to-day, to load with lumber at the St. Helens Mills. She will take only about 200,000 feet having already taken in a lot of staves and salmon.

IN LUCK.—We see by the *Times* of the 21st ult., that Mr. C. E. Fisher, late foreman in the Portland *Herald* office, has been appointed by Gov. Haight, as Expert to examine the State printing. Mr. Fisher was formerly a newspaper publisher in California and probably had personal acquaintance with Mr. Haight.

GOOD TEMPLARS.—Capt. F. G. Adams lately organized Crystal Sea Lodge of Good Templars at Port Townsend with seventeen charter members, and Richard Jones as W. C. T. At New Dungeness, he organized Beacon Lodge, with ten charter members and with Thomas Abernethy as W. C. T.

GROB'S MUSICAL AND EDUCATIONAL INSTITUTE.—We are informed by Mr. Grob that this Institute will be closed for a short time, to enable him to procure assistance. This has been rendered necessary by prolonged indisposition. Due notice will be given of the re-opening.

PRODUCE.—Arrived yesterday, per steamer *Alert*, from Oregon City, 354 bxs apples, 28 bxs eggs, 7 rolls leather, 12 bxs miscellaneous produce, 2 gunnies bacon, 38 hf bbls lard, 660 bags wheat, 507 qr sks flour, 96 sks barley, and 61 sks feed.

SAILS TO-DAY.—The steamship *Alex*, Wm. Metzger Commander, is advertised to sail for San Francisco to-day, at 3 o'clock, P. M.

COUNTY COURT.—The county court, Judge Marquam presiding, will convene on Monday to hold the regular January term.

E. M. ASCHHEIM & CO.—This is the name of a new firm who have recently opened a wholesale liquor establishment at No. 26 Front street, O. S. N. Co.'s new block. The house is conveniently located in the business portion of the city, and they have on hand an immense stock of choice wines and liquors. Sole agents for the celebrated Golden Sheaf Whiskey, a bottle of which will be readily recognized by referring to our advertising columns.

DISSOLUTION.—The firm of Bolter Bros., manufacturers of brooms, No. 29 Front street, was dissolved on the 1st of January. Mr. O. T. Bolter will continue the business as usual, and will doubtless keep up the good reputation the establishment now enjoys. We presume Mr. Bolter is a believer in the old adage that "a new broom sweeps clean," for he presented us with a very nice one yesterday.

GANG PLOWS.—Messrs. E. A. Hawley & Co., importers and dealers in agricultural implements, have just received a stock of Black's Patent Gang Plows, which have taken the premium in the great agricultural States of the West. Now is the time to purchase machinery for the spring crops, and farmers would do well to inspect the stock of Messrs Hawley & Co.

Reduction of the Army.

WASHINGTON, Nov. 27.—Gen. Grant is going on with his work of retrenchment, and to-day issued his general order No. 101, for a reduction of the army, which is as follows:

HEADQUARTERS OF THE ARMY,
WASHINGTON, Nov. 25, 1867.

The following orders will be duly executed:

First. All regiments of infantry, and all those of artillery, except the light batteries, will be reduced to the minimum allowed by law, viz., 50 privates per company. The reduction will be by casualty, and when one company falls below the minimum it will be recruited by transfer from other companies of the same regiment, until all are at the minimum.

Second. The general recruiting service will be immediately reduced by breaking up all excepting the principal rendezvous to each army, cavalry and infantry, and ordering surplus recruiting officers to their regiments. No more recruits will be sent to regiments until they are reduced as above ordered. This order will not be construed to prevent re-enlistments in their regiments of men who may be discharged by the expiration of their term of service.

Third. All volunteer officers now retained in the service will be mustered out, to take effect January 1st, 1868, except commissioned and disbursing officers of the Freedmen's Bureau.

By command of Gen. Grant.

E. D. TOWNSEND, A. A. G.

The army now numbers about 56,000 men. The foregoing order will, it is expected, reduce it to about 42,000, and effect an annual saving of seven or eight million dollars. General Grant thinks it would not be expedient at present to pass a law making a reduction in the military force, as some bad consequences might follow from a sudden withdrawal of ten thousand men. His order, to be sure, leaves in service an unusually large proportion of officers, but it keeps the army in such shape that it can readily be increased should occasion arise. The reduction proposed will occupy several months, and will be so gradual that no ill effects are anticipated. The issuance of this order will probably do away with all necessity for legislation looking to a decrease of the army, as General Grant thinks no further reduction can be made till reconstruction is accomplished.

EMPLOYING COLORED TALENT.—A correspondent of the Olympia *Transcript* writes as follows:

I see by the last papers that Frank Henry, one of the wise men of the nation, has been sorely and painfully exercised over an article that appeared in the OREGONIAN, in relation to his nominating and voting for a colored gentleman for doorkeeper. Does he suppose he can hoodwink anybody? Judging from his vote, it is fair to presume that he was unable to find a *democrat* willing to be elevated to the high and honorable position of doorkeeper, hence the selection. This is only another instance where his party have had to employ colored talent.

Last June it will be remembered, when canvassing Mr. Henry undertook to enlighten the people, by telling that the negro is an inferior being and should not be allowed the elective franchise, and in support of his position he read a lengthy production from the pen of Beverly Nash, a negro. It will also be remembered that a notorious rebel general of South Carolina, after he had exhausted himself in trying to secure talent of his own flesh and blood, had to employ Beverly Nash to edit his newspaper. "Oh, consistency? thou art a jewel."

A few years ago, in a village in Chester county, Pennsylvania, the Methodists and Presbyterians each built a church about the same time. Soon a rivalry arose between them, especially among the juvenile portion of the congregations. On one occasion the Methodist party got the best of the argument in this way: "Ah! I guess we've beat you now." "How?" "Why, we've got six buried, and you've only four; and there's old Mr. Cooper is going to die soon and he'll make seven."

The Savannah *Republican* thinks prize fighting is the twin sister of universal suffrage. Of course says the Boston *Post*, black eyes and noses are the result of each.

The Masonic Temple at Shanghai, China, was dedicated with a torchlight procession, in which an American fire engine figured.

FIRST NATIONAL BANK OF IDAHO—BOISE CITY, I. T.—Organized March 11th, 1867, (with circulation) under Act of Congress, approved June 3d, 1864. Authorized capital $500,000. Paid up capital $100,000. B. M. DuRell, President. C. W. Moore, Cashier. Collections of Notes and Accounts on the principal places of Idaho Territory promptly attended to. Exchange for Coin or Currency on this Bank can be purchased of Ladd & Tilton, Portland, Oregon.

CAPITOL, OLYMPIA, Dec. 11th, 1867.

DR. GROSS, Portland—*Sir:* I have been in the habit of using the "HENLEY ROYAL BALSAM" in my family, who reside at Wallula, Walla Walla county, W. T. I am now at Olympia, attending the present session of the Legislature, and the climate is so different from that of Walla Walla county that I have taken cold, and I have endeavored to purchase some of the medicine here but was unable to do so. Please send a bottle up immediately by mail. I have used nothing else in my family and cannot get along without it. Yours truly,

J. M. VANSYCKLE.

We should not suffer from a Cough, which a few doses of AYER'S CHERRY PECTORAL will cure. Time, comfort, health, are all saved by it.

REMOVED.

DR. J. A. CHAPMAN

HAS REMOVED HIS OFFICE TO NO. 89 FIRST ST., Next door to Mrs C. Levy's Store.

OFFICE—On the same floor with Buchtel & Cardwell's Photograph Gallery. May be found at the office for Night Calls. Special attention to Surgery. de4dtf

TEETH EXTRACTED

By Dr. Richardson's Apparatus, Lately Improved by Dr. Koehler, with Ether Spray.

WILLIAM KOEHLER,
DENTIST.

OFFICE AND RESIDENCE—Southwest corner Front and Yamhill Streets, opposite E. J. Northrup & Co's Hardware Store.

Extracting Teeth by Dr. Richardson's apparatus, with Ether Spray, is local in its application, the tooth and surrounding parts only becoming insensible to pain. Those suffering from bad teeth can now have them removed free from pain and without the effects of inhaling chloroform, ether or nitrous oxyde (laughing gas).

N. B.—To strangers I would say, that a constantly increasing Dental Practice for the last five years in this city, will be a sufficient guarantee for them to receive a First Class and Finished Piece of Work. Numerous testimonials to the same can be given at the office.

☞ Dental Consultations Free of Charge to all. jan1dtf

RACK & HATCH,
DENTISTS.

The patronage of those desiring FIRST-CLASS OPERATIONS respectfully solicited.

Satisfaction in all cases guaranteed.

N. B.—NITROUS OXIDE administered for the Painless Extraction of Teeth. Also, the RHIGOLENE SPRAY used for those who prefer it.

OFFICE—Corner of Washington and Front Sts. Entrance on Washington, Portland, Oregon. jy19dawtf

PORTLAND ACADEMY
AND
FEMALE SEMINARY!

The Holiday Vacation will close Monday, Jan 6th, at which time there must be a re-organization of Classes. Pupils can enter, paying only for the remainder of the Quarter.

THOS H. CRAWFORD, A. M., who has accepted a position in the school, is a professional teacher and a good musician. Vocal Music will be Free.

No effort is spared to make the Academy worthy of the very liberal patronage it receives. We confidently refer to our pupils and to the many prominent citizens of Portland who are our patrons.

For further information apply to
dec24d2w T. M. GATCH, Principal.

DR. C. W. COOL,
DENTIST.

THOSE WHO DESIRE FIRST-CLASS DENTAL SERVICES might do well to give him a call. He is making a NEW AND IMPROVED VULCANITE PLATE. The nature of his improvement consists in lining the entire concave surface with fine gold, it makes the plate twice as strong and one-third times thinner than the common vulcanite plate. It also prevents the acids of the mouth from roughing the plate, and from turning it black, which is a common occurrence. One half of the common vulcanite plates turn black after being in use a short time, particularly where tobacco is used for smoking. His new style of plate admits of a very fine finish on the concave or palate surface. His office is the only place where such work can be had. The improvement is his own invention, for which he has received, December 3d, 1867, a patent from the United States Patent Office. He has been making this style of work for the last two and a half years, and has specimens of the work which can be seen at his office. This work has given satisfaction in every case.

OFFICE—temporarily at the private parlor of the New Columbian Hotel. dec31-3ptf

PERRY DAVIS' VEGETABLE PAIN KILLER.

THE UNIVERSAL REMEDY FOR INTERNAL AND EXTERNAL COMPLAINTS!

At this period there are but few of the human race unacquainted with the merits of the Pain Killer, but while some extol it as a liniment, they know but little of its power in easing pain when taken internally, while others use it internally with great success, but are equally ignorant of its healing virtues when applied externally. We therefore wish to say to all that it is equally successful whether used internally or externally, and it stands alone, unrivalled by all the great catalogue of Family Medicines, and its sale is universal and immense. The demand for it from India and other foreign countries is equal to the demand at home, and it has become known in these far off places by its merits.

Just Cause for being Alarmed.—When a Cough has been running for a long time, and you begin to feel a pain setting in upon your lungs, attended with tightness across the chest, it is high time that you should awaken to the danger of your disease, which is fast running into Consumption. Now, before it is too late, use ALLEN'S LUNG BALSAM, which will cure the disease, and all will be well with you. For sale by the Dealers in Family Medicines generally.

ANNUAL INCOME..2,000,000 00
CASH DIVIDEND TO JAN. 1, 1867..1,106,366 35

THE FOLLOWING ADVANTAGES ARE OFFERED:—DIVIDENDS ANNUALLY. ALL POLICIES NON-FORFEITABLE, AFTER ONE PAYMENT. LOANS MADE ON POLICIES. CREDIT GIVEN FOR PART OF THE PREMIUM IF DESIRED. EXPENSES LESS THAN ANY CASH COMPANY. POLICIES INCONTESTIBLE. PROMPT PAYMENT OF LOSSES.

Important New Feature in Dividends and Modes of Insurance!

The following are examples of the operations of the last dividend:

POLICIES ISSUED IN 1863—ONLY FOUR YEARS AGO.

Age.	Amount insured.	Premium paid.	Added to policy.	Total amount.
40	$10,000	$1,250	$3 572	$13 572
35	8,000	1,092	2,848	10,848
30	7,500	708	2,706	10,206
25	7,000	571	2,506	9,506

This is an entirely new plan, originating with this Company, and gives insurers the largest return ever made by any company in the same period. Persons contemplating taking out policies of Life Insurance would do well to investigate the different Companies represented in Oregon.

All information in regard to the working of this Company will be cheerfully given by

C. P. FERRY, General Agent, 108 Front St., Portland.

G. VENARD,
CHARTRES COFFEE!
Manufactory Established in June, 1851.
STEAM POWER, NOS. 625 AND 627 FRONT ST.

HAS CONSTANTLY ON HAND GROUND AND ROASTED COFFEE, GREEN COFFEE of the best qualities. CREAM OF TARTAR and SPICES of all sorts.

The undersigned, who has always enjoyed public confidence for the excellent quality of his Coffee, neglects nothing to justify the good name acquired by his productions, the sale of which daily increases. The acknowledged superiority of his merchandise, which commends here, and in the markets of the interior, a relatively higher price, excites the cupidity of some manufacturers, and every day he sees increasing the number of those who, by counterfeit or imitation of his mark, seek to deceive the public, palming upon them their inferior product for the genuine G. VENARD CHARTRES COFFEE. This fraud can deceive nobody after a trial, but only adds to the favorable opinion of the consumers, the very flattering though unwilling testimony of the counterfeiters. Nevertheless, buyers should be forewarned, and placed on their guard against this practice.

BEWARE OF COUNTERFEITS.

Each package bears the signature of G. VENARD.

R. G. SNEATH,
Wholesale Grocer,
32 FRONT STREET, PORTLAND,

Has been appointed Agent for the Sale of VENARD'S COFFEE AND SPICES. myl4d3ptf

HOSTETTER'S
CELEBRATED STOMACH BITTERS!
A Pure and Powerful Tonic,
Corrective and Alterative, of wonderful efficacy in Diseases of the
STOMACH, LIVER AND BOWELS.
PREVENTIVE PROPERTIES

Fever and Ague and Bilious Remittent Fevers. Fortifies the System against Miasma and the evil effects of unwholesome water. Invigorates the organs of digestion and the bowels; Steadies the Nerves and tends to prolong Life.

REMEDIAL PROPERTIES.

Cures Dyspepsia, Liver Complaint, Sick and Nervous Headache, General Debility, Nervousness, Depression of Spirits, Constipation, Colic, Intermittent Fevers, Sea Sickness, Cramps and Spasms, and all Complaints of either sex arising from Bodily Weakness, whether inherent in the system or PRODUCED BY SPECIAL CAUSES.

NOTHING THAT IS NOT WHOLESOME, GENIAL, and restorative in its nature, enters into the composition of HOSTETTER'S STOMACH BITTERS. This popular preparation contains no mineral of any kind; no deadly botanical element; no fiery excitant; but is a combination of the extracts of rare balsamic herbs and plants, with the purest and mildest of all diffusive stimulants.

The weak stomach is rapidly invigorated, and the appetite is aided by this Bitters, and hence it works wonders in cases of Dyspepsia, and in less confirmed forms of Indigestion. Acting as a gentle and painless aperient, as well as upon the liver, it also invariably relieves the Constipation superinduced by irregular action of the digestive and secretive organs.

Persons of feeble habit, liable to Nervous Attacks, Lowness of Spirits, and Fits of Languor, find prompt and permanent relief from the Bitters. The testimony on this point is conclusive, and from both sexes.

As a General Tonic, HOSTETTER'S BITTERS produce effects which must be experienced or witnessed before they can be fully appreciated. In cases of Constitutional Weakness, Premature Decay, and Debility and Decrepitude arising from old age, it exercises the electric influence. In the convalescent stages of all diseases it operates as a delightful invigorant. When the powers of nature are relaxed, it operates to re-enforce and re-establish them.

Last, but not least, it is the only safe stimulant, being manufactured from sound and innocuous materials, and entirely free from the acid elements present more or less in all the ordinary tonics and stomachics of the day.

SOLD EVERYWHERE.

FINANCE AND COMMERCE.

WEEKLY REVIEW.

PORTLAND, FRIDAY, Jan 3, 1868.

The unusual [illegible] which have prevailed along almost the entire length of the telegraph line connecting this city with Sacramento, have cut off the dispatches and our latest [illegible] advices are from San Francisco papers received [illegible] Ajax which sailed on the [illegible] of Saturday, the 28th December, and arrived here on the morning of the 1st inst. We find from them that, on the 27th, gold [illegible] at 134, and at 11 A. M., was 133⅞, and at 3 P. M. was 134. At San Francisco, on that day, Legal Tenders were quoted at 74½c buying and 75¼ selling.

The U. S. Branch Mint at San Francisco closed on the 21st against the receipt of crude bullion, and against refined bullion, on the 24th. The coinage account was announced to close on the evening of the 27th. The Mint will remain closed for about six weeks from the 21st. Receipts of gold and silver bullion during December were as follows: Gold deposits, 38,362 ounces; silver deposits, 94,914 ounces. A comparison with the same month last year [illegible] an increase of 33,500 ounces in favor of 1867. The silver [illegible] for December of this year were unusually large, being one-third more than in any month since July last. These facts indicate a favorable condition of the mining interests of the Pacific coast.

The San Francisco [illegible] rates were as follows, Dec. 27th: At bank 1@1¼, supplies full, with but limited demand for [illegible]; coin drafts, 1 per cent.; currency drafts, 30 per cent. [illegible] on gold; telegraphic transfers, 1¼@1½, gold bars 29@1 [illegible] silver, par @¼ premium, very scarce.

To Dec. [illegible] 21st from January 1st duties paid, [illegible] to $7,694,182 78, as against, $7,107,182 48 in 1866. The remittances of treasure to New York, England, France and [illegible] from Jan. 1st to Dec. 21st, amounted to $40,619,330 [illegible] as against, $42,651,282 19 for the entire year of 1866.

The [illegible] news from the East, quoted wheat on the 27th, at $2 90 at New York, and 15s. 4d per cental at Liverpool on the 21st. Flour at New York, on the 27th, was [illegible] at $12 50.

The local jobbing trade of the past week has been exceedingly quiet, no transactions having taken place beyond supplying [illegible] orders for staple goods, for the interior and the limited demands of local retailers. The produce market is [illegible] dull though dealers decline to concede anything in prices. The receipts from the interior have been [illegible] and confined almost exclusively to shipments of flour from manufacturers to agents. No sales worthy of note have been effected. The disposition to [illegible] the rates prevailing has [illegible] and owners are shipping only to [illegible]. The [illegible] from San Francisco of prospects for [illegible] are not so discouraging as a superficial observer [illegible], and it is probable our produce dealers are [illegible] state of the situation, [illegible] from [illegible] of the markets. The Alta of the 28th says, of wheat: "Sales of inferior and medium [illegible] for milling purposes on private terms [illegible], however, were suitable only for low [illegible] of Flour, and the price, if made public, would form [illegible] to the current rates for good or [illegible] shipping. Holders are unwilling to make any marked [illegible] in rates, and although shippers in the last few days have [illegible] withdrawn from the market for [illegible] prices are remarkably firm, [illegible] have orders from [illegible] in the interior to [illegible]. From Liverpool and New York we have no [illegible] which tend to affect our [illegible] here. The [illegible] quoted still [illegible] at $2 10; while in [illegible] to the latest public [illegible] the price is 15s 3d. There are a few [illegible] who [illegible] in the [illegible] on hand in the State, but a [illegible] of a steady [illegible] that gaining ground as evidence [illegible] by the [illegible] the [illegible] at present date. We report the sales [illegible] public in the order in [illegible] $2 50; 3,000 do. private; 127 do. good, $2 75; 130 tons [illegible], 3,000 sacks of [illegible] 200 do. [illegible] shipping, for export to [illegible] milling, private; 66 tons [illegible] 300 sks good [illegible] $2 50; 500 do. [illegible] $2 25; 25 tons of good Oregon, $2 50."

During the year 1867 the [illegible] of flour and wheat at this city [illegible] Willamette [illegible] as per [illegible], and the exports by sea [illegible] up as follows:

	Flour, sks.	Wheat, sks.	Flour, sks.	Wheat, sks.
Jan	[illegible]	2,020	25,910	8,168
[illegible]	[illegible]	866	34,486	560
[illegible]	[illegible]	314	29,987	—
[illegible]	[illegible]	[illegible]	48,383	284
May	41,935	3,786	47,294	5,508
[illegible]	[illegible]	4,668	60,411	1,370
July	[illegible]	596	7,877	80
[illegible]	16,[illegible]	146	24,803	303
[illegible]	[illegible]	1,31[illegible]	19,371	444
[illegible]	[illegible]	12,019	24,958	8,370
Nov	26,404	15,976	46,006	7,812
Dec	40,[illegible]	6,000	70,058	11,614
[illegible]	415,[illegible]	59,[illegible]	461,708	43,120

[illegible] the city by wagon [illegible] part of [illegible] of 1,500 [illegible] per day. It is [illegible] in that way, during the three fall [illegible] of 120 [illegible] each. In addition [illegible] have been [illegible] receipts of flour from Walla Walla and [illegible], but as we have no [illegible] an estimate, we leave them out of the [illegible]. The [illegible] of exports of flour [illegible] by the [illegible] largely [illegible] in by [illegible], and that portions of the receipts from the Columbia [illegible] have entered into the exports [illegible] of this year with those of last, show [illegible]. The Portland Directory for 1867 [illegible] of flour [illegible] 1866, at [illegible]. The wheat exports of [illegible]

[illegible] we have [illegible] to San Francisco, 776 bbls, [illegible] bbls and 7 cases beef, of pork, 430 bbls, [illegible] and 44 hf bbls; [illegible], 206 cases and 170 [illegible] lard, 1,868 [illegible] bbls, 3061 hf bbls and 206 [illegible]

We find [illegible], at the [illegible] pork at [illegible]; lard in tins, at 16c. The [illegible] of the 20th says: "Supplies from the [illegible] from local [illegible] to be [illegible] trade [illegible] so [illegible] that it is with [illegible] that [illegible] low and [illegible] and [illegible] stock quite out of the question. We quote [illegible] 12½@15c; [illegible], 10@12c [illegible]. Of beef and pork, the receipts from [illegible] are [illegible], and in the [illegible] of sales our quotations must be [illegible] upon, as [illegible]. Mess beef [illegible] do [illegible] do $1 [illegible]."

In [illegible] we find little to note. In [illegible] there is a steady though [illegible] have a hand [illegible] toward [illegible]. The [illegible] at the East [illegible] even upon the [illegible]. In view of this, [illegible] no more than is necessary [illegible]. We quote [illegible] sheetings and [illegible] back.

The [illegible] of the week has been [illegible] active, in the line of [illegible] for the holidays. Otherwise, [illegible]

oct16lptf JOS. PINKHAM, Agent

HIRAM SMITH'S

Ophthalmic Panacea!

IN BRINGING THE ABOVE-NAMED NEW REMEDY to the notice of the Public, the Proprietor begs to state a few facts in relation to it, as follows:

It originated in Fr[illegible], where the science of Medicine is so thoroughly taught and practised, but owing to the poverty of its discoverer its wonderful properties were not known beyond the limited circle of his acquaintance, in which, however, it proved itself absolutely infallible in eradicating disease from the eyes.

He immigrated to this country, bringing his discovery with him, but seems to have been indifferent to the propriety of giving it general and wide-spread circulation, and, as previously in his native country, ar[illegible] only [illegible] of using it among his friends and neighbors.

The present proprietor was one of those neighbors, and for many years was a witness to its wonderful efficacy, and, after ineffectual efforts to persuade the inventor to more widely disseminate the knowledge of its virtues, finally became himself the [illegible] of the secret of its preparation.

And now, while he does not deny that he hopes and expects to make money by its sale, he must yet lay claim to a desire to benefit his fellows by presenting to them a remedy which does and will cure where medical science and all experience have failed.

He wishes it to be understood that it will cure all diseases of the eye, whether of recent or long standing; but its greatest power is exhibited when it is applied to old Chronic Cases of long standing, which have resisted every other effort to cure them, and which have been given up as hopeless and past being cured or relieved.

He asks those afflicted in this way to give it a trial, and so confident is he of its merit that he instructs all his agents TO REFUND THE MONEY IF IT FAILS TO CURE.

It has, within the past year, cured cases of GRANULATED LIDS, INFLAMMATION, &c., of FIVE, SIX, NINE, [illegible] and SEVENTEEN YEARS STANDING, evidence of which fact is furnished in the testimony of the following persons living at and in the neighborhood of Harrisburg, Linn county:

ALEXANDER L. WALKER was cured of inflamed eyes, of nine years standing. Had been treated by eminent physicians during all that time without effect.

Mrs. MONTGOMERY, of Harrisburg, had inflamed eyes for over two years. For one year they were so bad that she could not work. Was finally completely cured by the Ophthalmic Panacea.

E. B MOORE, of the firm of Moore, Garst & Baber, of Harrisburg, had [illegible] this for six years.

NATHANIEL BELL, of Clackamas county, had inflamed eyes—a bad case—for over fifteen years.

ROBERT RAMPEY and W. D. PORTER, of Harrisburg; JOHN M. HOLLOWAY, of Linn County; G. E. WARD, of Lane County, were all afflicted, more or less severely, with diseased eyes, and were cured by the Ophthalmic Panacea.

All the [illegible] have given [illegible] testimonials to the facts as above stated, which may be seen at the proprietor's office in Harrisburg.

Prepared by SMITH & RILEY,
Harrisburg, Oregon.

For sale by SMITH & DAVIS, Portland, Oregon.

Sixth Year of Publication!

PROSPECTUS

OF

THE OLYMPIA TRANSCRIPT!

WE, THE UNDERSIGNED, HAVING PURCHASED the "UNION BOOK & JOB PRINTING OFFICE," of T. F. McElroy, propose to issue a Weekly Newspaper at Olympia, W. T., on or about the 1st of December next, to be called THE OLYMPIA TRANSCRIPT.

The paper will be devoted to the Agricultural, Mechanical, Commercial, Mineral, Moral and Political interests of the whole Territory.

In Politics we shall uphold and sustain the Union Principles of the Nation, at the same time reserving the right to be INDEPENDENT on all subjects, that we may be better able to discuss all matters in their true light, and give credit wherever it is due.

We trust our friends will circulate this prospectus generally, and assist us in getting a good list of Subscribers, Advertisements, or Job Work. We also invite correspondence from all sections of the Territory.

THE OLYMPIA TRANSCRIPT will be issued every Saturday, at $3 per annum, in advance.

Hoping to receive a share of public favor, we unfurl our banner to the breeze.

GROB'S

MUSICAL AND EDUCATIONAL

INSTITUTE!

ALSO,

DAY & BOARDING SCHOOL

FOR YOUNG LADIES.

THIS INSTITUTE IS SITUATED IN A RETIRED and beautiful location, away from the [illegible] portion of the city, on Third, between B and C Sts Portland, Oregon.

Attached to the building are extensive and beautiful grounds, for the convenience of pupils.

The Educational Department will be in charge of an efficient corps of Teachers. CAPT. J. F. C. ALLSOPP, (formerly a Professor in the University of [illegible], and for the last five years Principal of a Collegiate Institute in the Southern part of California), Principal.

No effort will be spared to make this Institute equal to the best on the Pacific Coast. The Course of Studies will embrace all the branches usually taught in first-class Seminaries in the East, including the Classics, French, German, Spanish, Mathematics, &c., &c.

The Musical Department will be conducted by PROF. H. GUIDO GROB, Graduate of Planel's Conservatorie.

Parties from the country may rest assured that under the care of MRS. GROB, (Matron of the [illegible]), they will experience all the attention of a mother and enjoy the comforts of a home.

N. B.—Particular attention will be paid to the choice of Text Books, in order to avoid anything of a Sectional or Partisan nature in our curriculum of studies.

For further particulars, enquire at the Institute or address H. GUIDO GROB, P. O. Box No. 168.

CARD.

DR. BARLOW J. SMITH'S WATER CURE AND Phrenological Institute, 627 Sacramento Street, San Francisco. This is the only Regular Water Cure in Francisco, where all curable diseases are treated without drugs. Dr. Smith was the first to establish a water cure on this coast, based upon the theory and practice of the New York Hydropathic College.

We have a truly healthful boarding place for men, women and children, and our prices are moderate.

The Phrenological organs plainly indicate the diseases to which any person, male or female, is predisposed.

Put this card in your hat, and when you come to San Francisco, call on Dr. Smith. He will give you a consultation and a phrenological examination in regard to health. It will cost you nothing and may save you months and years of ill health and "bad luck."

Dr Smith gives free lectures to gentlemen every Friday evening, on subjects pertaining to health, at his Phrenological Hall, 627 Sacramento Street.

TO THE UNFORTUNATE.

NEW REMEDIES, NEW REMEDIES

Dr. Gibbon's Dispensary.

616 KEARNEY STREET, NEAR COMMERCIAL, San Francisco. Established in 1854, for the treatment of Sexual and [illegible] D[illegible], such as Gonorrhoea, Gleet, Stricture, Syphilis in all its forms, Seminal Weakness, Im[illegible], etc. Skin Diseases (of years [illegible]) and Ulcerated Legs fully treated.

Horrible Diseases.

How many thousands of persons, both male and female, are there who are suffering out a miserable existence from the effects of secret indulgences, or from virus [illegible] into the system! Look at their pallid, [illegible] and [illegible] faces and their broken [illegible] life, disqualifying them for the happiness of [illegible] or the enjoyment of life. In this horrid [illegible] and suffer until death closes the scene. Let parents, guardians, friends, attend to those who are suffering with any of these horrible life destroying maladies, [illegible] they are cared for and cured before it be too late. Send them immediately to Doctor Gibbon, a physician who has [illegible] private disease his especial study for years, and who is certain to cure the most inveterate cases without mercury or any injurious drugs. It is important to [illegible] who are afflicted, or to those who are interested in the welfare of their friends, to be careful of the many pretended doctors who infest all cities, publishing their skill in curing all diseases in a few days, imposing upon the public by using the names of eminent physicians from Europe and other [illegible]. Be therefore careful and [illegible], or you may fall into the hands of [illegible] charlatans.

Seminal Weakness.

[illegible], the consequence of self-abuse. This solitary vice, or [illegible] Sexual indulgence, is practised by the [illegible] of both sexes to an almost unlimited extent, producing, with unerring certainty, the following train of morbid [illegible], unless combatted by scientific medical [illegible], viz: Sallowness of visage, dark [illegible] the eyes, pain in the head, ringing in the ears, noise like the rustling of leaves and rattling of chariots, [illegible] the loins, weakness of the limbs, confused vision, blunted intellect, loss of confidence, diffidence in approaching strangers, a [illegible] to form new acquaintances, [illegible] to shun society, loss of [illegible], flushes, pimples and various eruptions about the face, furred tongue, fetid breath, coughs, consumption, night sweats, [illegible] mania and frequent insanity. If relief be not [illegible], should apply immediately, [illegible] or by letter, and have a cure effected by his new and scientific mode of treating this disease, which never fails in effecting a quick and radical cure. Dr. G. will give One Hundred Dollars to any person who will prove satisfactorily to him that he was cured of this complaint by either of the San Francisco quacks.

MARRIED MEN,

Or those who contemplate marriage, who are [illegible] under any of these [illegible] maladies, should not forget the sacred resp[illegible] bility resting upon them nor delay to obtain immediate relief.

TO THE LADIES.

The [illegible] and distressing diseases incident to females, treated with eminent success. Such as Suppressions, Irregularities, Whites, Falling of the Womb, Tumors, all Urinary Diseases, Nervous Debility, Painful or Difficult Menstruation, Barrenness, etc., will be [illegible], without [illegible] drugs, [illegible] or unpalatable medicines of any kind. Have no delicacy in calling, no difference what your troubles may be. The afflicted are cordially invited to call and satisfy themselves.

Persons calling at Dr. Gibbon's office or [illegible] for packages of medicines, may rely upon his assurances of confidential secrecy with implicit faith, and expect no more than to be charged with a fair, and mutually satisfactory remuneration for services rendered, considering the circumstances and [illegible] of cases, rather than a too prevalent and selfish practice of extortion among quacks and pretenders.

DOCTOR GIBBON is responsible, and will give to each patient a written instrument, binding himself to effect a radical and permanent cure, or make no charge.

CURED AT HOME.

Persons at a distance may be CURED AT HOME, by addressing a letter to Dr. Gibbon, stating case, symptoms, length of time the disease has continued, and have medicines promptly forwarded, free from damage and curiosity, to any part of the country, with full and plain directions for use, for Ten Dollars, sent in a registered letter or through Wells, Fargo & Co.

Address DR. J. F. GIBBON, 616 Kearney street, corner Commercial, San Francisco. Post Office Box 252.

REMEMBER TO PUT BOX 252 ON THE LETTER.

Consultations FREE.

Correspondents will please inform DR. GIBBON that they read his advertisement in the Daily Or[illegible].

To Soldiers Claiming Bounties

UNDER THE

EQUALIZATION BOUNTY BILL!

THE UNDERSIGNED, HAVING RECENTLY REturned from Washington City, where he has made the proper arrangements for the collections of the Extra Bounty of $100 allowed to all soldiers enlisted after the 19th day of April, 1861, for a period of not less than three years, and $50 for soldiers enlisted for a period of not less than two years.

Persons entitled to the benefits of said Bounty will find it to their interest to attend to its collection at once. Having an Agent at Washington, and personal knowledge of the mode of making collections through the Departments, I can get returns promptly.

Call with your Discharge, and two witnesses for identification, at the Publication Office of the Daily Oregonian, No. 5 Washington St., Portland.
A. BUSHWILER, Claim Agent.

N. B.

Persons residing at a great distance can have their claims attended to by sending me their "Discharge," Postoffice address and place of enlistment.
A. BUSHWILER.

Notice in Bankruptcy.

DISTRICT OF OREGON—SS.—THIS IS TO GIVE notice that on the 3d day of December, 1867, a warrant of bankruptcy was issued out of the District Court of the United States for the District of Oregon, against the estate of Arthur Langell, of Jacksonville, Jackson county, in said District, adjudged a bankrupt, on his own petition; that the payment of any debts and the delivery of any property belonging to such bankrupt, to him, to his use, or for his use, and the transfer of any property by him, said debtor, are forbidden by law; and that a meeting of the creditors of said bankrupt, to prove their debts and to choose one or more assignees of his estate, will be held at a Court of Bankruptcy, to be holden at the United States Court Rooms, in Portland, aforesaid, before the Judge of the United States District Court for said District, on the 5th day of February, A. D. 1868, at 11 o'clock A. M. AL ZEIBER,
Dec. 4, 1867 U. S. Marshal for said District.
